Gopal Dose

Full-Stack Developer | AI & Machine Learning Enthusiast | Ex-Intern
@ Barclays | Creating Smart, Scalable Solutions
Pune, Maharashtra, India

Summary

Currently pursuing a Bachelor of Engineering in Computer Engineering at Pune Institute of Computer Technology, with a strong focus on software development and data visualization. Recently contributed to Barclays as a Technology Summer Intern, where the team built and integrated a scalable, interactive dashboard for data management and anomaly detection, enhancing operational workflows through automation and self-service capabilities.

Previous roles include Full-stack Developer Intern at Astraeus Next Gen Pvt. Ltd., where collaborative efforts delivered backend and frontend solutions for cloud-deployed applications, and Freelance Web Developer, focusing on API integration and responsive design. Committed to crafting efficient, scalable solutions with a passion for seamless UI/UX integration and cross-functional collaboration.

Experience

Barclays

Technology Summer Intern

June 2025 - August 2025 (3 months)

Pune, Maharashtra, India

Built and integrated a scalable, interactive dashboard for data management and anomaly detection.

Improved operational workflows by reducing manual intervention through automation and self-service capabilities.

Ensured consistent UI/UX across the platform with seamless integration.

Worked in an Agile environment, collaborating with engineers, analysts, and SMEs.

Astraeus Next Gen Pvt. Ltd.

Full-stack Developer

January 2025 - April 2025 (4 months)

As a Full Stack Developer Intern, I worked on two key projects—DeepSea, where I created FastAPI endpoints, conducted backend testing, and deployed the application on Google Cloud; and Vajra, where I implemented both the backend and frontend. Both projects were collaborative efforts that enhanced my skills in full-stack development and teamwork.

Self-employed

Freelance Web Developer

January 2024 - January 2025 (1 year 1 month)

Pune, Maharashtra, India

Worked as a Freelance Web Developer delivering full-stack solutions using React.js, Django REST Framework, and Tailwind CSS. Deployed scalable apps on Amazon EC2 and integrated APIs using AWS API Gateway. Focused on building responsive UIs and efficient backend systems for remote clients.

Catalyst Education Consultancy

Web Developer

September 2023 - March 2024 (7 months)

Pune, Maharashtra, India

Developed and optimized web applications using MERN, improving performance.

Enhanced user experience by implementing responsive design with Tailwind CSS, leading to improved engagement and usability.

Collaborated with a cross-functional team to deliver projects on schedule and within scope.

iNet Solutions

Android Developer

January 2023 - February 2023 (2 months)

Kolhapur, Maharashtra, India

Built and deployed Android applications using Flutter, improving the client's mobile engagement.

Integrated APIs and backend services to enable real-time data syncing, providing users with a seamless experience.

Troubleshoot and debugged issues within the app, ensuring a smooth and bug-free performance.

Government Polytechnic, Kolhapur

Full Stack Developer

January 2022 - February 2023 (1 year 2 months)

Led a team in deploying full-stack solutions for institutional needs, incorporating user feedback to improve functionality and usability. Provided ongoing support and troubleshooting, ensuring the stability and reliability of applications in a dynamic academic environment. Optimized codebase and implemented testing practices to ensure high performance and maintainability, reducing bugs and improving overall code quality.

Revolution IT Solutions

Web Developer

July 2022 - August 2022 (2 months)

Kolhapur, Maharashtra, India

Designed and developed responsive websites with HTML, CSS, and JavaScript.

Worked closely with designers and project managers to ensure accurate implementation of client requirements.

Utilized SEO best practices to increase site visibility and attract more organic traffic for clients.
